

COFFEE TABLE

# Enya

Enya is a particularly elegant table. The droplet shape of the table top is contrasted by the dynamic, tinted glass sides, which create an exciting mix of materials.

In combination, the tables in different heights create a harmonious ensemble and generate a fascinating play of light.

## Maße

**Thickness table top** 2,5 cm | 1.0"

| cm   inch     | Small      | Middle     | Large       |
|---------------|------------|------------|-------------|
| <b>Length</b> | 65   25.6" | 80   31.5" | 100   39.4" |
| <b>Hight</b>  | 30   11.8" | 35   13.8" | 40   15.7"  |

Carbon

Wood is a natural resource and each piece is unique. Due to its natural origin, there may be variations in structure and color. Those are the result of the specific growth and environment of the tree. Solid wood and all other natural materials such as leather, wool fabrics and ceramics can show differences, which underlines the uniqueness and beauty of these materials. Slight color variations may also occur in glass and metal. A picture can only approximate the color and texture of real materials. Experience the original materials and furniture in live at your local retailer store.

## Special options

We manufacture your Rodam furniture in the wood and colors of your choice. Ask your local Rodam retailer or contact us.
